

FROM CARL FISCHER® MUSIC

This is the pedal harp edition. The lever harp edition is also available.

FOR THE FIRST TIME:

The etudes are printed on two spiral bound pages instead of one, making them much easier to read, and allowing more room to write.

Pedal changes are included, in large letters, saving lots of preparation time.

There is a companion Etude Variation for each Etude that builds on the technical material of the original, for a total of 81 pages of music!

At the beginning of the book is a description of techniques that will help you learn music faster and more accurately.

There is a short description of each etude and etude variation, explaining the technical points and how to work on them.

There are suggested fingerings to get you started.
